## **CERTIFICATE OF ANALYSIS**

Analysis Date: Dec 2023

Re-test Date: Nov 2026

## Product Name: Allopurinol EP Impurity B

## Identification:

Chemical Name: 5-(Formylamino)-1H-pyrazole-4-carboxamide

| Synonyms           | : Allopurinol USP Related<br>Compound B                                                                              | Ο               |
|--------------------|----------------------------------------------------------------------------------------------------------------------|-----------------|
| CAS Number         | : 22407-20-1                                                                                                         | NH <sub>2</sub> |
| CAT Number         | : CP-A12002                                                                                                          |                 |
| Molecular Formula  | : C5H6N4O2                                                                                                           | H H O           |
| Molecular Weight   | : 154.13                                                                                                             |                 |
| Batch Number       | : CP-ALL-B-1223                                                                                                      |                 |
| Storage Condition  | : Tightly closed, Inert atmosphere at 2 to 8° C                                                                      |                 |
| Shipping condition | : All Products are stable to be shipped at room temperature, if specific condition required it is mention in the COA |                 |

## **Analytical Information:**

| Sr. No. | Test           | Result                       |
|---------|----------------|------------------------------|
| 1)      | Description    | Light Blue Hygroscopic Solid |
| 2)      | Solubility     | Soluble in Methanol/DMSO     |
| 3)      | MASS By LCMS   | Confirm to structure         |
| 4)      | Purity By HPLC | 99.04%                       |
| 5)      | H1NMR          | Confirm to structure         |
| 6)      | 13CNMR         | Confirm to structure         |
